

ADITYA BHARTI

adityabharti.aktu2020@gmail.com | +91-9335265907 | <https://github.com/adityabharti2020>

<https://www.linkedin.com/in/aditya-bharti-3b3662248>

Full Stack Developer skilled in building scalable apps with **React.js**, **Next.js**, and **Node.js**, **Express.js**. Proficient in **Material UI**, **Redux Toolkit**, and **Axios**. Experienced with **PostgreSQL**, **Prisma ORM**, **JWT auth**, RESTful APIs, and **MVC architecture**, with a focus on clean and secure code.

Skill Summary

Frontend & Styling : React.js, Next.js, Material UI, Redux Toolkit, HTML5, CSS3, JavaScript (ES6+).

Backend & Databases: Node.js, Express.js, REST APIs, JWT Auth, MongoDB (Mongoose), PostgreSQL (Prisma).

Tools & DevOps: Vite, VS Code, Postman, pgAdmin, Figma (basic), AWS EC2, S3, Git, GitHub, Nginx.

Work Experience Techdock Labs | Lucknow | Full Stack Developer Feb'24 – Present

Project: Zatak (POS Platform) – Ongoing project (<https://www.zatak.store/>)

Mobile App : <https://play.google.com/store/apps/details?id=com.zatak.application>

Developing full-stack applications using **Node.js**, **PostgreSQL**, and **Prisma ORM** for robust **backend APIs**, and **React.js** with **Material UI** for intuitive, responsive user interfaces. Built a merchant-facing web panel and mobile **APIs to support caretakers, distributors, and customers in managing inventory, orders, and deliveries**. Key features include invoice printing, role assignment via barcode scanning, and offline support through **Progressive Web App (PWA) capabilities**.

My Role: I developed both the backend and frontend of the website, designed and managed the database, and built an admin panel to efficiently manage content across the application and website platforms.

Project: ApeBuzz, ApeItNow, ApeLabs

- **ApeBuzz**: A mobile app designed for users to send buzz, helping expand their personal and professional social networks.
Link: <https://play.google.com/store/apps/details?id=com.apelabs.apebuzz>
- **ApeItNow**: An e-commerce site for headphones and t-shirts, built with Next.js (frontend) and Node.js (backend).
Link: <https://www.apetitnow.com>
- **ApeLabs**: A mobile app for audio streaming and song management.
Link: <https://play.google.com/store/apps/details?id=com.apetitnow.apelabs>

My Role: Built admin panels for centralized content management across three platforms and developed an e-commerce website to support seamless operations.

Project: Aapno Bhimanyu (Congress political leader)

Built an admin panel for Aapno Bhimanyu mobile app to manage constituency operations, including users (students, mentors, party workers) and social media platforms. Created a comprehensive admin panel to manage users, study materials, appointments, posts, policies, and engagement features.

- Created a comprehensive admin panel to manage users, study materials, appointments, posts, policies, and engagement features.
- Integrated Firebase for real-time notifications and handled social media, news, and content updates.
