Profile

Passionate and detail-oriented Front-End Developer with strong expertise in React.js, API integration, and responsive design. Skilled in building user-focused, scalable web applications, and currently seeking an opportunity to leverage my frontend skills in a dynamic team environment.

Professional Experience

React Developer, Edsom Fintech Pvt Ltd

08/2024 – present

VL Nidhi Bank (vlnidhi.com)

Pune

Developed a corporate banking website with modules for members, savings accounts, investments, and plan master using React.js, Material-UI, and Redux. API Integration: Implemented REST APIs for dynamic data updates across all modules.

Mobile Responsiveness: Ensured a seamless, responsive user experience with Material-UI layouts. Secure Access:

Integrated JWT-based authentication for role-specific secure access.

iPaisa (iPaisa.co.in)

An all-in-one app for bill payments, transactions, and bookings (buses, flights, hotels).

Currently developing the Flights Booking module with real-time flight details using a third-party API.

Built search, filter, and booking workflows with Material-UI for responsive design.

Integrated APIs for live flight availability, pricing, and booking updates.

MERN Stack Intern, Humancloud Technologies Pvt Ltd

06/2024 – 08/2024

Property Bulls: Developed a comprehensive property listing platform with dynamic and responsive features.

Frontend Development: Built a user-friendly interface using Next.js, React, and TypeScript.

Backend Development: Implemented secure data management with Node.js, PostgreSQL, and TypeORM.

Advanced Filtering: Added robust filters for properties by location, price, and features.

API Integration & State Management: Used Axios and Redux for seamless data handling and interactions.

Mobile Optimization: Delivered a responsive design for a smooth experience on both desktop and mobile devices.

React Developer, IPH Technologies Pvt Ltd

02/2023 – 07/2023

Completed a one-month training program, followed by active development work.

Lucknow

Worked on the company's websites, iphtechnologies.com and iphtechnologies.org.

Focused on implementing mobile-responsive designs to enhance the user experience across devices.

Skills

HTML	CSS
Javascript	React.js
React Native	Node.js
Express.js	MySQL
Git and GitHub	Linux (Ubuntu)
Material UI	Core Java
PostgreSQL	Prisma ORM
TypeORM	Typescript
Microservices using express.js	Next.js
Redux	Tailwind CSS

Projects

iPhone Store

It is an iPhone eCommerce website which is implemented in MERN using MySQL and in this project I have implemented Redux and JWT. In this project a user can simply login and access the website and add any iPhone into the cart then further proceed with place order button.

<https://github.com/W3-80495/iphone-Store> 

Online Jewellery Shopping

The main goal of this project was to create shopping cart, which allows customers to shop and purchase the Jewellery products online. The application is implemented in MERN technologies and consists of two main components. Admin Side and User Side.

<https://github.com/DMC-Ankit-Kumar/OnlineJewelleryShopping> 

System Optimizer

The project was a desktop based application which is built on Eclipse IDE using Core Java and MySQL workbench. This helps our PC to run smoother, deletes the temp file and duplicate files.

Education

CDAC, Sunbeam Pune, PG-DMC 62.29 %	2024
University of Lucknow, MCA 81 %	2022
University of Lucknow, BCA 57.3 %	2020
