### Summary

Full-stack JavaScript developer (4+yrs) specializing in Angular and Node.js. Build fast, reliable apps with clean code, strong state management, and real-time sockets—focused on teamwork and iterative delivery.

### Work Experience

#### Consultant – Intellect Design Arena Ltd

*Jul 2024 – May 2025*

- Develop and maintain the Customer Information Management system used for onboarding, account handling, and product integrations (LMS, VAM).
- Fixed production issues and added dynamic form validation to reduce data-entry mistakes.

#### Senior Software Developer – Birlasoft Ltd

*Jan 2023 – Jul 2024*

- Re-designed the Data Ingestion Platform's UI to simplify workflows and improve usability.
- Streamlined API calls and re-factored legacy code to raise performance and maintainability.

#### Software Developer – Ink In Caps Pvt Ltd

*Jul 2021 – Jan 2023*

- Delivered more than ten Angular/Node web projects (e-commerce sites, admin panels, landing pages).
- Key highlights:
  - **Livon Serum E-commerce** – shopping cart, wish-list, Razorpay payments, secure customer dashboard.
  - **Disney Star Sports Metaverse** – connected Angular front end with Unity for an immersive event space; added socket-based chat and guest access.
  - **Krish-e by Swaraj** – multilingual video platform with dynamic content switching.
  - **Royal Stag Chatbot** – reward-based, multilingual chatbot integrated with REST services.

#### Front-End Intern – Kannecting Global

*Mar 2021 – Jun 2021*

- Helped build an OTT platform—video playback, short-film catalog, user dashboard—using Angular, Bootstrap, and REST APIs.

### Selected Projects

- **Customer Information Management (CIM)** – Angular workspace with shared libraries, form wizard for onboarding, and Node services for product linkages.
- **Data Ingestion Platform** – Revamped Angular codebase; introduced RxJS state management, tree-shakable modules, and Express middleware clean-up.
- **Livon Serum Store** – Complete e-commerce flow with OAuth login and email verification on Express/Passport.
- **Disney Star Sports Metaverse** – Real-time sockets for chat/notifications; Unity bridge for 3-D interactions.
