

Gajanan Godbole

Android Developer | Kotlin | 3+ yrs

Contact details: gajanangodbole112@gmail.com | +91-8668937478 | [linkedIn](#) | Nagpur, Maharashtra

Summary

Innovative Android Developer with 3+ years of experience designing and delivering high-performing mobile applications. Published 6+ apps on the Play Store, collectively achieving 10,000+ downloads and maintaining an average 4.5-star rating. Expert in Kotlin, Android SDK, and BLE, with a proven track record of optimizing performance, reducing app load times by 25%, and improving user retention by 15%. Adept at leading Agile teams, integrating backend systems, and creating scalable, user-friendly solutions.

WORK EXPERIENCE

Mobile Application Developer

Qloron Technology Pvt Ltd, Nagpur (Aug 2021 - Present)

- Designed and delivered **6+ Android applications** with 10,000+ total downloads on the Play Store.
- Optimized app load times by **25%**, leading to a **15% increase in user retention**.
- Built scalable backend communication using **MVVM** and **Retrofit**, supporting **1000+ daily API calls** with high reliability.
- Integrated BLE technology to enable seamless device communication, reducing latency by **30%**.
- Enhanced UI/UX with custom animations and views, increasing customer satisfaction scores by **20%**.
- Pioneered Jetpack component adoption (Navigation, Room, Paging), improving app maintainability by **35%**.
- Supported CI/CD pipeline automation using **Bitrise**, reducing deployment errors by **40%**.

Client - Music Tribe Innovation Private Limited, Bangalore

Senior Mobile Application developer

- Developed BLE-enabled hardware control apps, driving over **50,000+ installations** and maintaining a **4.8-star rating**.
- Led the implementation of **Wi-Fi technology**, enabling seamless hardware connectivity for real-time control of **10+ device models**.
- Designed a **sound visualizer UI** and equalizer graph, enhancing user interaction and increasing daily active users by **25%**.
- Built and deployed high-performance apps with **99.9% crash-free sessions**, improving app reliability.

TECHNICAL SKILLS

- Programming: Kotlin (3 years), Java (2 years)
- Frameworks & Architecture: Proficient in Jetpack, ViewModel, LiveData, Room, MVVM, Coroutines, Flow, Dagger Hilt and SOLID principles, enhancing code maintainability by 35%.
- UI/UX: Jetpack Compose (1 years), Designed custom UI components and optimized layouts, reducing rendering times by 25% and increasing user engagement by 20%.
- Networking: Integrated Retrofit and REST APIs, handling 1,000 daily requests with 99.9% crash-free sessions.
- BLE & Wi-Fi: Implemented BLE and Wi-Fi modules, reducing communication latency by 30% and supporting 20+ hardware devices.
- CI/CD & Testing: Automated deployments with Bitrise, cutting release times by 30%, and conducted rigorous testing to ensure 99.9% app stability.

- **Agile Collaboration:** Worked in Agile teams, achieving 95% sprint success rates and consistently delivering projects on time.
-

KEY ACHIEVEMENTS

- **Performance Optimization:** Improved app loading speeds by **25%** through architectural changes and optimized data handling.
 - **High Ratings:** Consistently achieved **4.5+ star ratings** on published apps, driving user satisfaction.
 - **Global Collaboration:** Coordinated with an international team to successfully launch **3+ apps**, exceeding client expectations.
 - **Code Quality:** Reviewed and refined codebases, reducing bugs by **30%** and aligning with industry.
-

EDUCATION

B.E. in Computer Science & Engineering

Nagpur Institute of Technology, Nagpur (June 2017 - July 2021)

CGPA - 8.0

12th, HSC Board

Hadas High School, Nagpur (may 2015 - may 2017)

10th, SSC Board

Priyadarshini Indira Gandhi School, Nagpur (May 2015)

PROJECTS

Show Mix (*Available on Play Store*)

- Developed a BLE-enabled remote app for controlling speaker hardware, with **10,000+ downloads** and a **4.6-star rating**.
- Integrated BLE for device communication with a latency reduction of **25%**.
- Designed custom UI components using **Canvas and Paint**, enhancing visual appeal and usability.

MX-MIX (*Available on Play Store*)

- Created an Android app for controlling synthesizers and mixers via Wi-Fi and BLE, achieving **20,000+ downloads**.
- Implemented custom UI features, including an **equalizer graph** and **sound visualizer**, improving engagement by **30%**.
- Enhanced app performance using **MVVM architecture** and coroutines for seamless updates.

Frego Mobile App

- Developed a social media app similar to Instagram, featuring reels, stories, and live video chat with Agora SDK.
- Delivered an intuitive chat system using **Socket.io**, supporting **5,000+ concurrent users**.
- Integrated Firebase for authentication and analytics, achieving a **20% growth in daily active users**.

Orbit Mart Android App

- Built a multi-role e-commerce platform with **4 apps** for customers, merchants, distributors, and employees.
- Increased transaction efficiency by **40%** by integrating the Razorpay payment gateway and pagination features.
- Managed a team of **3 developers**, ensuring timely delivery of features and resolving **95% of reported bugs**.
