PROJECTS

Sukhmay Foundation

05/2024 -07/2024

An app designed to support Sukhmay Foundation's mission of aiding those in need.

- Developed an Android application for Sukhmay Foundation using Android Studio and Java.
- Implemented user registration and profile management features.
- Integrated functionalities for donating food, books, and clothes.
- Designed intuitive and user-friendly interface.

Avinay

Freelancing project that includes various features.

Description-This app provides an efficient way to explore items, manage favorites, and handle invoices while integrating with WhatsApp, Instagram or any other way for easy sharing. It is an all-in-one solution tailored to user convenience and functionality.

LokSewa (In-Progress)

Description-This app is designed to create a digital directory of all the shops in the village, making it easy for users to search, locate, and connect directly with vendors.

Goal-To empower the community by improving accessibility to local vendors, supporting businesses, and fostering connections within the village.
