SUMMARY

Android Developer with 1 years of experience in building high-quality, responsive, and user-friendly mobile applications. Proficient in Java, Kotlin, and Android SDK, with a solid understanding of the Android architecture components, APIs, and libraries. Adept at collaborating with cross-functional teams, implementing new features, and optimizing application performance. Passionate about staying up-to-date with emerging technologies to deliver seamless mobile experiences.

TECHNICAL SKILLS

- **Programming Languages:** Java, Kotlin, SQL, XML
- **Mobile Development:** Android SDK, Kotlin Coroutines
- **Architecture & Patterns:** MVVM
- **UI/UX:** Material Design, RecyclerView, ConstraintLayout
- **Version Control:** Git, GitHub, GitLab
- **Databases:** Firebase, SQLite, Room Database
- **APIs & Web Services:** RESTful APIs, JSON, Retrofit, OkHttp
- **Tools & Libraries:** Android Studio, Dagger2, Retrofit, Glide, Picasso, Firebase, Room
- **Project Management:** JIRA
- **Other:** Firebase Cloud Messaging, Google Maps API, Crashlytics, Push Notifications
- **Web Technologies:** HTML, CSS, JavaScript , Bootstrap, Tailwind, React JS
- **Tools:** Microsoft Word, Excel, PowerPoint

PROFESSIONAL EXPERIENCE

Kayana | Ordering and Payment's Solutions   Nov 2023 - Present

Kayana is a dynamic UK-based startup and product-focused company specializing in innovative technology solutions tailored to enhance the ordering and payment experience for businesses in the food and beverage industry. The company's comprehensive platform integrates self-service kiosks, electronic point of sale (EPOS) systems, mobile apps, mobile point of sale (MPOS) devices, QR code ordering, and other cutting-edge tools to streamline customer service.

- Developed and maintained Android applications, focusing on enhancing user experience, scalability, and performance.
- Worked with Kotlin to build user-friendly, maintainable code for various projects.
- Implemented and optimized UI components using RecyclerView, ConstraintLayout, and Material Design guidelines.
- Integrated third-party libraries (Retrofit, Glide, Firebase) for features like image loading, data persistence, and push notifications.
- Collaborated with product managers and UI/UX designers to implement new features and optimize existing ones.
- Handled data synchronization, offline storage, and implemented Firebase Cloud Messaging for push notifications.
- Successfully refactored legacy code for improved readability and maintainability.
  Technical Environment: Android Studio, Kotlin, Firebase, Retrofit, MVVM, Coroutines, Dagger Hilt

EDUCATION

BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE :
SRM Institute of Science and Technology, Chennai, India
06/2018 - 05/2022, (CGPA-7.9)

INTERMEDIATE :
Kashmir Harvard Educational Institute, Srinagar, India
11/2016 - 11/2017

HIGH SCHOOL :
Green Valley Educational Institute, Srinagar, India
11/2014 - 11/2015

RELEVANT PROJECTS

ADD HAPPY PLACES APP
Developed an Android app using Kotlin that utilizes resources, Calendar Date Picker, Coroutines, Google Maps/Places APIs, and 'dbinspector' for database debugging. 'Dexter' simplifies permission requests. Features a RecyclerView for location data with swipe actions and current location access.
Technical Environment: Android Studio, Kotlin

7 MINUTES WORKOUT APP
Created a 7-min workout app using RoomDB, RecyclerView, RadioButtons, BMI calculator, TextToSpeech, and Timer ProgressBar for effective, user-friendly fitness routines.
Technical Environment: Android Studio, Kotlin, RoomDB

KIDS DRAWING APPLICATION
A creative Android app for kids to draw, paint, and share artwork. Features include multiple brush sizes, a color palette, undo/redo, gallery integration, and easy image saving and sharing. Built with Kotlin, coroutines, and GitHub hosting for collaboration.
Technical Environment: Android Studio, Kotlin, Coroutines
