Angular Developer

7284967014

Experienced Angular Developer with 3+ years of expertise in front-end development, specializing in building high-performance, scalable web applications. Proficient in Angular, TypeScript, and jQuery, with a strong command of Angular's core features such as Pipes, Services, Directives, and Modules. Skilled in developing responsive UI/UX using Angular Material, JavaScript, HTML5, and CSS3. Adept at optimizing application performance, integrating RESTful APIs, and troubleshooting complex issues. Passionate about writing clean, maintainable code and staying up-to-date with modern web technologies to enhance user experience and drive innovation.

PROFILE SUMMARY

- **Versatile Full Stack Developer with 3+ years of experience** in designing, developing, and optimizing scalable web applications using **Angular, Node.js, and jQuery**.
- **Proficient in Angular development**, specializing in creating dynamic, user-centric interfaces with a focus on performance, responsiveness, and maintainability.
- Strong expertise in **RESTful API integration**, ensuring seamless communication between front-end applications and backend services.
- Skilled in **version control (Git)** and best practices for testing, debugging, and optimizing code for scalability and efficiency.
- **Collaborative team player**, experienced in working closely with UI/UX designers, backend developers, and stakeholders to deliver high-quality projects.
- Passionate about **continuous learning**, staying up-to-date with the latest front-end technologies, frameworks, and performance optimization techniques.

WORK EXPERIENCE

- **MEAN Stack Developer | Techmicra IT Solutions** **March 2024 – Current**
 - **Developed a Single Page Application (SPA)** using **Angular**, ensuring responsiveness with **HTML, CSS, and JavaScript**.
 - **Led requirement gathering and project architecture**, managing team collaboration and client communications.
 - Designed and developed **Angular components, services, pipes, and directives**, focusing on performance optimization and issue resolution.
 - **Implemented comprehensive form validation**, ensuring data accuracy and seamless user interactions.
 - Enhanced **application efficiency** by streamlining code, structuring Angular modules effectively, and reducing load times.
 - Assisted in debugging front-end issues, adopting **modern Angular development best practices** for stability and scalability.
- **Angular Developer | Moon Technolabs** **June 2022 – March 2024**
 - Developed dynamic **Angular applications** with interactive pages and **seamless navigation** for enhanced user experience.
 - **Implemented robust form validation** to improve data integrity and ensure accurate user inputs.
 - **Optimized application performance** by refining code, managing **Angular modules**, and minimizing load times.
 - Managed dependencies and optimized **Node.js modules**, ensuring minimal bundle size and **efficient application performance**.
 - Actively participated in **Agile development**, contributing to sprint planning, stand-ups, and retrospectives.

- **Full Stack Developer Intern | Epistic Technologies** **Oct 2021 – April 2022**
 - Gained foundational knowledge in **backend development**, following industry best practices for scalable architecture.
 - Developed and implemented **UI views** for basic web pages, enhancing front-end skills in **Angular and JavaScript**.
 - Built hands-on experience with **MongoDB**, integrating it effectively into full-stack projects.

PROJECTS

- **Ifax**
 - **Tools & Technologies:** Angular, TypeScript, JQuery
 - **Description:** Developed **IFAX**, a secure **digital faxing platform** that allows users to send and receive faxes without a traditional fax machine. Designed for **mobile, desktop, and tablet compatibility**, enabling secure document uploads via email or web interface. Focused on data security, encryption, and reliability to ensure secure communication and compliance with industry standards.
- **Pattern Potters**
 - **Tools & Technologies:** Angular, TypeScript, ExpressJS, MongoDB
 - **Description:** Built **Pattern Potters**, a full-fledged e-commerce platform for garment shopping. Designed and developed the frontend in **Angular** and backend using **MongoDB & Express.js**. Integrated **Payment Gateway** and **Email Campaign** features for seamless transactions and user engagement.
- **Supply Cannon - (Ecommerce Portal)**
 - **Tools & Technologies:** Angular, WebAPI 2.0, Square Payment API, SendGrid, JavaScript, Bootstrap
 - **Description:** Developed **Supply Cannon**, an e-commerce platform that aggregates raw material pricing from **multiple vendors** for restaurants. Implemented a **web scraping mechanism** to compare prices, ensuring cost-effective purchasing. Designed the frontend in **Angular 7**, with **WebAPI 2.0** as the service layer for API communication. Structured the application into three key layers: data scraping, API services (Web API 2.0), and an Angular-based frontend, ensuring a fast, responsive, and intuitive user experience.
- **SureToShop Website**
 - **Tools & Technologies:** Angular, Firebase, TypeScript
 - **Description:** Designed and developed **SureToShop**, an e-commerce platform utilizing **Firebase as the backend API**. Implemented essential features, including **user authentication, product browsing, add-to-cart, and order placement**. Built an **admin dashboard** to manage product inventory in real-time, enabling product additions, deletions, and updates efficiently
- **E-Commerce Website**
 - **Tools & Technologies:** Angular, Node, MongoDB, TypeScript
 - **Description:** Developed the backend for an e-commerce website, implementing key functionalities such as authentication, user models, product tables, and order tables. Utilized MongoDB for efficient data management and organization related to users, products, and orders, ensuring seamless and robust operations of the application.

TECHNICAL SKILLS

- Angular (Detailed)
- JavaScript (Intermediate)
- TypeScript (Intermediate)
- JQuery (Intermediate)
- RxJS (Intermediate)
- HTML5 (Intermediate)
- CSS3 (Intermediate)
- SCSS (Intermediate)

CORE SKILLS

- Front-End Development
- Testing & Code Quality
- Agile Methodologies
- Version Control System (Git)
- Team Management
- Problem Solving
- Communication

EDUCATION

- **BE (Information Technology)** | Silver Oak College Engineering And Technology | (2018 – 2022)
- **HSC** | A. K. Vidhyamandir | (2018)
- **SSC** | A. K. Vidhyamandir | (2016)

LANGUAGES

English, Hindi, Gujarati
