FULL STACK DEVELOPER

Results-driven Frontend Developer with over **2.5 years of experience** in creating responsive, user-centered web applications and cloud-integrated solutions. Proficient in **React, JavaScript, HTML5, CSS3**, and modern CSS frameworks, with hands-on expertise in **Azure cloud services** and backend integration. Skilled in frameworks like **Angular** and **Vue.js**, with experience in **REST APIs** and **MVC architectures**.

TECHNICAL SKILLS

Languages	:	JavaScript ES6, Java, Python, HTML5, CSS3, TypeScript
Frameworks	:	React.js, Angular, Express, Bootstrap 5, Tailwind, Material UI
Libraries	:	JQuery, Redux, React Router, DOM Manipulation
Databases	:	MySQL, MongoDB
Dev Tools	:	Visual Studio Code, Git, GitHub, Bash Command Line
Other Skills	:	Responsive Design, Cross-Browser Compatibility, Agile Methodologies, RESTful APIs
Cloud Services	:	Microsoft Entra ID, Azure Storage, Azure Cache for Redis

EXPERIENCE

Software Engineer June 2022 – Present
LTIMindtree *Pune, India*

- Developed and maintained a responsive web application for booking travel services using **HTML5, CSS3, JavaScript (ES6), and React**, achieving a performance improvement of **30%** in application responsiveness. Leveraged **React State and Lifecycle**, **Hooks**, and advanced event handling to create dynamic, interactive components.
- Designed visually appealing and user-friendly interfaces with **Bootstrap 5, Flexbox, and CSS Grid**, ensuring cross-browser compatibility and delivering an intuitive user experience.
- Implemented front-end build tools such as **Webpack** and **Babel**, optimizing the application's development and deployment pipelines.
- Utilized **AJAX** for seamless asynchronous data communication, improving the user experience with real-time updates.
- Leveraged **GraphQL** for optimized data fetching and mutation, reducing API call redundancy and improving query performance by **25%**.
- Configured **Azure Active Directory (Azure AD)** for secure authentication, enabling Single Sign-On (SSO) and role-based access control to protect sensitive user data.
- Utilized **Azure Storage** for efficient data management and implemented **Azure Cache for Redis** to cache frequently accessed data, reducing server response times by **30%**.
- Collaborated in an Agile environment, actively participating in sprint planning, regular code reviews, and managing the codebase with **Git** and **GitHub**.
- Delivered a scalable, high-performing application praised for its seamless functionality, user-centric design, and reliability within tight deadlines.

EDUCATION

Government College of Engineering Chandrapur
Bachelor of Engineering *Jan 2017 – Dec 2021*
CGPA:-8.67

PROJECTS

Personal Portfolio Website *HTML5, CSS3, React.js, JavaScript* Source Code

- Developed a responsive portfolio website using **React.js and Node.js/Express** to showcase projects, skills, and experience.
- Styled with **CSS3 and React-Bootstrap**, the site offers a user-friendly interface and is deployed to **Vercel**.

Exercise Tracker *Mongoose, MongoDB, React, Node.js, Express* Source Code

- Built a full-stack exercise tracker **CRUD application** using the **MERN (MongoDB, Express, React, Node.js)** stack.
- The application allows users to create, read, update, and delete exercises, with data stored in a **MongoDB** database hosted on **MongoDB Atlas**.
- Deployed via **GitHub** for version control and **CI/CD**

CERTIFICATIONS

- Java Full-Stack Training (Mindtree Orchard Learning Program) - 3 months
- Full Stack Web Development with MERN Stack, GenAI, AI Prompting, Cursor AI, Node.js/Express, React, MongoDB, JavaScript
- Java New Features (Java 12): Lambda, Streams, JPMS, Jlink, Joda
- Machine Learning A-Z: Hands-On Python & R in Data Science
- SQL Certificate (HackerRank)
- Python Certificate (HackerRank)
