

LOVE SHARMA

Android Developer | Kotlin | Java | UI/UX Design | API Integration | CI/CD

7999829932 • lovesharma6464@gmail.com • Chennai, Tamil Nadu, IND

Summary

I am an Android Developer with over two years of experience in building high-quality mobile applications. Proficient in Kotlin, Java, and tools like Jetpack components, MVVM, and Kotlin Coroutines, I create intuitive UIs with robust business logic. My skills include REST API integration, performance optimization, and developing secure, scalable applications. I am passionate about solving challenges, learning new technologies, and contributing to innovative projects.

Key Achievements

- | | | |
|--|--|--|
|  Transaction Module Improvement
Implemented payment module, reducing transaction errors by 40% for OSS Pay application. |  App Performance Enhancement
Boosted app load time by 20% through performance optimizations on UPPCL project. |  UI Redesign Success
Increased app user engagement by 25% after redesigning UI for Android application. |
|  API Integration Excellence
Integrated 15+ APIs, improving app functionality and user satisfaction at Oasys Cybernetics. | | |

Experience

- | | |
|---|---|
| Oasys Cybernetics Pvt Ltd
Android Developer
Company specializing in software development. <ul style="list-style-type: none">Designed and developed UI screens using XML and Shape Drawables, improving user interface performance by 20%, and implemented efficient layouts with TextView, ListView, and WebView to enhance user experience..Created a Navigation Drawer to streamline app navigation, reducing user confusion by 30%. Designed and implemented a product section leveraging custom adapters, base adapters, and WebView, increasing user engagement by 25% | Chennai, Tamil Nadu, IND
05/2023 - Present |
| DigiMonk
Backend Developer
A digital solutions company. <ul style="list-style-type: none">Developed and deployed scalable backend systems using Python (Django), managing data for over 5,000 users monthly, while ensuring seamless frontend functionality integrationDeveloped and maintained robust web applications using Python, Django, and REST API architecture. Spearheaded the development of Shillzone, a Bitcoin review system, resulting in a 50% increase in user participation within 6 months | Gwalior
08/2021 - 03/2022 |

Education

- | | |
|---|-------------------------------------|
| Rustamji Institute of Technology
B.Tech | Gwalior, India
06/2019 - 06/2023 |
|---|-------------------------------------|

Skills

Android • android jetpack • Android SDK • API Integration • apis • CI/CD • Continuous Integration • Django • Git • GIT Version Control • Gradle • Java • jetpack • Kotlin • livedata • MVVM • Object-Oriented Programming • Python • Rest API • UI/UX Design • wireframes • XML

Projects

OSS Pay

07/2023 - 01/1970

OSS Pay project focusing on payment solutions.

- Collaborated effectively with UI/UX design teams to translate wireframes and mockups into intuitive, responsive, and visually appealing Android applications.
- Partnered with backend teams to seamlessly integrate APIs, ensuring secure and efficient data exchange and transaction handling.
- Actively contributed to the continuous integration/continuous deployment (CI/CD) pipeline, reducing development cycle times and improving delivery efficiency.

UPPCL

12/2023 - 01/1970

UPPCL project aimed at power management solutions.

- Collaborated effectively with UI/UX design teams to translate wireframes and mockups into intuitive, responsive, and visually appealing Android applications.
- Partnered with backend teams to seamlessly integrate APIs, ensuring secure and efficient data exchange and transaction handling.
- Documented technical processes, API interactions, and project progress to ensure clear communication across cross-functional teams.
