

PINTOO RANA

Sr. Full Stack Developer

pintoorana08@gmail.com; +91 9958233105; Noida, Uttar Pradesh (201301)
<https://www.linkedin.com/in/pintoorana/>

CAREER OBJECTIVE

I am a highly skilled Full Stack Developer with extensive experience in creating dynamic web applications using modern technologies such as Node.js, Angular, and MongoDB. I excel in both backend and frontend development, effectively collaborating with teams and delivering high-performance solutions. My goal is to leverage my technical expertise in a challenging role that fosters growth and innovation.

TECHNICAL COMPETENCIES

- **Operating Systems:** Window, Linux
- **Tools & Platform:** GitHub, VS-Code, Jenkins.
- **Databases:** MongoDB, MySQL
- **Programming:** JavaScript, TypeScript
- **Frameworks & Libraries:** Node.js, NestJS, ExpressJS, Angular
- **Skills:** API Development, REST APIs, Debugging, Live Chat Integration, Payment Gateways (Razorpay)

RELEVANT EXPERIENCE

Sr. Full Stack Developer

Binmile Technologies Pvt. Ltd.

August 2022 -Present

- Leading the development of scalable web applications using modern frameworks and tools.
- Expertise in **Node.js**, **NestJS**, and **Angular** for full-stack development.
- Implemented cutting-edge solutions, enhancing application performance and user experience.

Full Stack Developer (MEAN)

Fluper Technologies Pvt. Ltd.

July 2019 – August 2022

- Developed end-to-end solutions using the **MEAN stack** (MongoDB, Express.js, Angular, Node.js).
- Delivered high-performance APIs and backend systems for multiple client projects.
- Collaborated with cross-functional teams to build user-friendly and scalable applications.
- Hands-on experience in live chat integration, push notifications, and RESTful API development.

PROJECTS

1. Edelweiss Mutual Fund (FinTech), Full Stack Developer

2022 - Present

- **Feature Development:** Designed and implemented key features, including "Add to Cart," "Smart Bundle," and "Freedom SIP."
- **API Development:** Built and integrated RESTful APIs to support application functionality.
- **Server-Side Operations:** Managed and developed server-side APIs to ensure seamless data flow.
- **Payment Integration:** Successfully implemented Razor pay for payment processing.
- **Bug Fixing:** Identified and resolved live bugs and implemented hotfixes for urgent issues.
- **Cloud Infrastructure:** Managed AWS S3 bucket for secure and scalable storage solutions.
- **Technology Stack:**
 - **Backend:** Node.js, NestJS, PostgreSQL
 - **Frontend:** Angular, Ionic, Angular Material, Reactive Form

2. Grocery Application

Nov 2019 – Aug 2020

- **E-Commerce Platform:** Developed features for a grocery platform, enabling users to book daily essentials and have them delivered to their doorstep.
- **Live Chat:** Implemented live chat functionality in the admin panel for real-time user interaction.
- **Push Notifications:** Integrated push notification capabilities using Angular to improve user engagement.
- **Live Tracking:** Developed live tracking features to provide real-time updates on order status.
- **API Development:** Built and integrated REST APIs to support seamless operations.

3. Fundraiser

July 2020 – Apr 2021

- **Crowdfunding Platform:** Developed a fund collection application allowing users to create events or request loans for traveling and return the amount within a specified timeframe.
- **Push Notifications:** Integrated push notification functionality using Angular to enhance user engagement and reminders.
- **API Development:** Designed and implemented REST APIs for seamless operations and user interactions.

4. Rento - Car Rental Platform

June 2022 - Aug 2022

- **Car Booking System:** Developed features for booking cars on rent with a streamlined user experience.
- **Change Request Handling:** Worked on CR (Change Request) points and optimized database queries to enhance performance.
- **API Development:** Designed and deployed REST APIs for core functionalities.

5. Dineout

Apr 2021 – Aug 2022

- **Restaurant Management:** Designed and implemented features to add dishes and restaurants dynamically.
- **Location-Based Filtering:** Built advanced filtering mechanisms for restaurants based on user locations.
- **Live Chat and Notifications:** Integrated live chat functionality between admin and users, with push notifications for real-time updates.
- **Custom Message Triggers:** Developed custom notification triggers for targeted communication.

EDUCATION

MCA(IT)

Noida Institute of Engineering and Technology (NIET)

08/2017 - 05/2019

Greater Noida, Uttar Pradesh

PERSONAL COMPETENCIES

- **Initiative & Decision Making:** Proactive in identifying opportunities and making informed decisions to drive results.
- **Learning Orientation:** Committed to continuous learning and development, embracing new challenges and knowledge.
- **Adaptability:** Flexible in adjusting to changing environments and effectively managing shifting priorities.
- **Creative & Analytical Thinking:** Strong ability to balance creative expression with strategic analysis, as demonstrated through sketching and problem-solving.
