## Personal Profile

A Self-taught UI/UX Designer Who believes design thinking can solve most of the problems. I can design beautiful user interfaces for both mobile and website. I've worked in cross-functional teams for the past 4+ years. I approach each design iteration and thinking as part of a living process. Nothing is rejected, nothing is one-directional. My long-term goal is to make things easy to use and delightful to everyone. When I'm not working, I love to travel.

PowerPoint templates & presentations

## Work Experience

### 2020 - Present

Cognizant

### UI/UX Designer

As a member of the Design team I play a versatile role. I will create wireframes, prototypes, and quick sketches as per the client's requirements and company's social media- Understand the requirement and build graphics, web and mobile screens, create coherent UI- I will work closely with Engineers, Project Managers, and Developers to implement, review, refine and iterate user experiences- Manage high expectations, differing opinions, difficult constraints, and hard timelines- Drive a design culture that emphasizes data and user research.

I am proactive and take ownership in working towards the goal of project.

I have rich experience in building creating scalable designs based on the internal company guidelines.

Experienced in handling and working with various internal and external teams.

I have experience in dealing complex situations with stakeholders.

### 2015 - 2020
