CARREAR SUMMARY

Results-driven Full-Stack Developer with Extensive experience in **Angular, Node.js, and AWS** spanning nearly **3 years of experience,** specializing in to deliver scalable and secure web applications. Successfully **improved application performance by 30% through optimized code and architecture**. Adept at maintaining high-security standards using tools like Black Duck and Checkmark to ensure **vulnerability-free deployments.**

WORK EXPERIENCE

Baker Hughes   **June. 2022 – Present**

Software Engineer   Hybrid, Pune

- Built responsive **Angular** UIs and developed **Node.js** backend services, optimizing performance.
- Created **RESTful APIs** for seamless data exchange between frontend and backend.
- Automated **CI/CD pipelines** with **ArgoCD**, **reducing deployment time by 40%**.
- Integrated **Keycloak** for secure authentication and **Black Duck**, **Checkmarx**, and **Prisma Scan** for vulnerability management.
- Actively participated in **Agile development** processes, including **sprint planning, code reviews, and continuous integration** efforts.

Technology Stack: Angular, RxJS, Node.js, Express.js, PostgreSQL, RESTful APIs, ArgoCD, **Git**, Keycloak, Black Duck, **CI/CD, Agile Development**, RESTful APIs, RabbitMQ, NodeJS clusters, **Vulnerability Assessment** etc.

PROJECT

Cordant   **June 2021 - Present**

- "Cordant" is a cutting-edge product, where my role involves full-stack development, focusing on building responsive user interfaces and managing backend services to deliver efficient and scalable web applications.
- Technology stack - Angular, Node.js, Git, GitHub, Argocd, keyclock, vulnerability Tools (Blackduck, Checkmark, Prisma scan etc.) etc.

Chatbot-Enabled Dashboard   **Nov 2023 - Dec 2024**

- Tech Stack: Angular, Node.js, PostgreSQL, AWS Lambda.
- Developed an intuitive Angular-based dashboard with chatbot integration for real-time user assistance. Engineered backend services using Node.js, incorporating dynamic suggestion algorithms and database queries in PostgreSQL.
- Leveraged AWS Lambda for serverless execution, reducing operational costs.

SKILLS

- **Backend:** Node.js, Express.js, RESTful APIs
- **Frontend:** Angular, TypeScript, JavaScript, HTML, CSS, Figma, Responsive Design, React, Jasmine, Karma, Jest.
- **Database:** PostgreSQL, RDBMS, SQL
- **Cloud & DevOps:** AWS (EC2, S3, Lambda, RDS, DynamoDB, CloudFormation), ArgoCD, CI/CD Pipelines
- **Authentication & Security:** Keycloak, OAuth 2.0, Black Duck, Checkmarx, Prisma Scan
- **Other:** Agile (Scrum, JIRA), API Testing (Postman), Containerization (Docker), Vulnerability Assessment, UNIX, Git, GitHub, Object-oriented design and development, Scrum.

EDUCATION

CDAC Mumbai   **September 2021 - June 2022**

PG Diploma in Advanced Computing | Percentage: 78%   Mumbai, Maharashtra

Dr Babasaheb Ambedkar Technological University, Lonere   **June 2017 - June 2021**

Bachelor of Technology | CGPA: 7.9   Mumbai, Maharashtra
