KEY SKILLS

Technical Skill
- Android Application Development
- MVC/MVVM
- Android SDK
- Payment Gateways
- SQLite
- Coroutine
- Room Database
- Retrofit
- Data Binding
- Dagger
- Mockito
- Firebase
- JSON
- UI Design Principle
- Github
- Dependency Injection
- Jetpack Compose

Coding & Tools
- Core Java
- Kotlin
- MS Project
- JIRA
- Microsoft Excel
- Smart Sheet
- User Experience design
- MS Office
- PowerPoint
- Asana

PROFILE SUMMARY

Highly motivated and results-oriented IT professional with 8+ years of experience in software development and 2+ years of successful project management. I have a proven track record of leading and delivering complex projects as a Solution Leader and Specialist Software Engineer/Module Lead.

My expertise spans both technical and managerial domains, enabling me to effectively bridge the gap between business needs and technical solutions.

I thrive in dynamic environments and excel at:
- Leading and motivating high-performing teams
- Developing and implementing innovative solutions
- Fostering strong client relationships

EDUCATION

2019 — MBA/PGDM
Institute of Management Technology (IMT), Ghaziabad

2015 — B.Tech/B.E.
Noida institute of engineering and technology

2011 — XIIth
English(CBSE)

2009 — Xth
English(CBSE)

- Identify and correct bottlenecks and fix bugs. Design, build, and maintain high-performance, reusable, and reliable.

Jul 2015 - Jan 2016

Software Developer

MS Corporation

Worked on Dummy based Java Application Using Core Java and Local Database.

Worked in a fast-paced and dynamic environment with limited resources.

PROJECTS

120 Days

STRINGER (dCEO chatbot)

- **Role**: Stringer serves as the alter ego of Brane as a company.
- **Core Function**:
    - Connects information, insights, and interactions like string theory.
    - Embodies advancements in NSL and LLM technologies.
- **Purpose**: To act as a professional buddy to all Braners, assisting, training, guiding, and collaborating to drive success.
- **Skills:** Project Management, Product LifeCycle Management, User-Centered design, Agile Methodology), Asana, Figma.

150 Days

Inventory Management System(IMS)

- The main purpose of inventory management systems is to streamline managing inventory, including procurement, storage, tracking, and sales.
- These systems aim to:
    - Optimize inventory levels to prevent stockouts and overstocking.
    - Improve efficiency in inventory tracking and management.
    - Enhance order fulfillment processes.
    - Provide insights for strategic decision-making regarding purchasing, pricing, and stocking.
- **Skills**:Project Management, Product LifeCycle Management, User-Centered design, Agile Methodology, Str ing er (P er sonal P latfor m), Asana, Figma, online payment gateways, MS Project.

700 Days

Realogy-TLP

- Focuses on enhancing real estate training programs.
- Aims to be the preferred training platform for brokers and agents.
 Key Goals
    - **Boost Brand Uniqueness:** Empower each brand with distinctive training offerings.
    - **Attract & Retain Talent:** Increase the number of agents and brokers joining and staying with the brand.
    - **Enhance Productivity:** Drive significant growth in per-person productivity.

 Development Skills: Android Studio, SDK ,MVVM, Kotlin, , Jetpack, Coroutine, DataBinding, GIT, MS Project, APIs, online payment gateways, Project Management, User-Centered design, Agile Methodology.

G.A.I.T. APP

92 Days

Project Name: Gait Assessment and Intervention Toolbox (G.A.I.T.)

Project Focus:
- Develop an Android app.
- Create a system for innovative, high-quality product manufacturing.
- Enhance the quality of life.

Key Features (Inferred):

Gait Deviation Identification: Provide clinicians with a Step-by-step guide to identify gait abnormalities.

Android App: Offer a mobile-friendly platform for Accessing and utilizing the system.

JBG

31 Days

JBG Provides:
- Employee Assistance Programs (EAPs) for employees and their families.
- Workplace management and staff training services to employers.

EAP Focus:
- Addresses personal and work-related problems that interfere with daily life.

JBG EAP Solutions:
- High-quality and cost-effective.
- A more affordable alternative to traditional employee benefits.

GIFWAR

122 Days

- The project titled GIFWAR is a android App Do you like games   similar to Cards Against Humanity or Apples to Apples? Level up and use GIFs to win the battle!
- Cards against humanity,   friends,   gifs,   game, multiplayer.

- **Skills**: Android Studio, SDK, Retrofit, MVVM, Data Binding, Firebase, Core Java , APIs, Waterfall Methodology.

ElectreeFi APP

152 Days

- **ElectreeFi**: A platform that helps EV drivers/owners find charging stations.
- **Focus**: Supports Electric 2-wheelers, 3-wheelers, and 4-wheelers.
- **Key Feature**: Largest SmartCharging Network in India.
- **Platform Advantage**: Aggregates charging stations from various operators.
- **Skills**: Android Studio, SDK, MVVM, DataBinding, Core Java, Data Binding, Retrofit, Firebase, APIs, Payment Gateways, Waterfall Methodology

DelChargeHome APP

91 Days

- **DelChargeHome**: An app for controlling Delta Home Chargers.

- **Developed by**: Delta Electronics, Inc.

- **Key Functions**:

- Remotely operate Delta Home Chargers.
- Initiate charging sessions.
- View charging history and dashboards.
- **Core Feature**: View Registered Charger with live status.
- **Development Skills**: Android Studio, SDK, Retrofit, MVVM, Data Binding, Firebase, Core Java.

213 Days

RATTAN PUBLIC CONVENT SCHOOL

- **Project Focus:**
  - Develop an Android app for school management.
  - Enhance the quality of school management worldwide.
  - Increase the value of schools.
- **Development Skills**: Android Studio, SDK, Retrofit, MVVM, Data Binding, Firebase, Core Java.

153 Days

HELENSVALE STATE HIGH (Android App)
- **Project Focus**:
  - Develop an Android app for school management (likely specific to Helensvale State High School).
  - Improve school operations and communication.
- **Key Features (Inferred)**:
  - School-specific information and resources.
  - Communication tools (likely messaging and announcements).
  - Event calendars and reminders.
  - Possibly student information access (grades, schedules, etc.)

Development Skills: Android Studio, SDK, Retrofit, MVVM, Data Binding, Firebase, Core Java

120 Days

HAMMED APP
- **Project Focus**:
  - Develop an Android app for tailors and their customers.
  - Enhance the quality of cloth measurements for tailors.
  - Improve the customer experience.
- **Key Features (Inferred)**:
  - Digital measurement tools (possibly using camera or other sensors).
  - Order management system.
  - Communication platform between tailors and customers.
  - Customer profiles and measurement history.

Development Skills: Android Studio, SDK, MVC, Core

365 Days

JAIPUR VIDYUT VITRAN NIGAM   LIMITED (JVVNL) App

- **Project Focus:**
  - Develop an Android app for JVVNL customers.
  - Enhance the quality of customer service, specifically complaint handling.
  - Improve customer satisfaction.

- **Key Features (Inferred):**
  - Complaint registration and tracking system.
  - Online bill payment options.
  - Outage reporting and updates.
  - Customer support chat or messaging.
  - Information on JVVNL services and tariffs.

Development Skills: Android Studio, SDK, Retrofit, MVVM, Data Binding, Firebase, Core Java

180 Days

DIALER CALL CENTER (Android App)

- **Project Focus**:
  - Develop an Android app for call centers.
  - Enhance the quality of call center operations.
  - Improve call center efficiency and productivity.

- **Key Features (Inferred**):
  - Advanced dialer with features like call recording, call history, call logs.
  - CRM integration (Customer Relationship Management) for managing customer data.
  - Call analytics and reporting (call duration, call disposition, etc.)
  - Agent performance tracking and monitoring.
  - Automated call distribution and routing.

Development Skills: Android Studio, SDK, Retrofit, MVVM, Data Binding, Firebase, Core Java
