Summary

A skilled professional specializing in designing and developing interactive user interfaces. Expertise in ReactJs, HTML5, CSS3, SASS CSS, Bootstrap 4 and 5, with a proven track record of delivering high-quality projects on time. Skilled in requirement analysis, frontend development, and responsive design.

Experience

Capslock Digital

Jan 2020 – Till Date

Senior Frontend UI Developer

As a Senior Frontend UI Developer at Capslock Digital, I focused on designing and implementing user-centric interfaces for various interactive platforms. I developed responsive layouts and adaptive designs using technologies like HTML, CSS, Bootstrap, Sass CSS, and JavaScript, ensuring seamless functionality across devices such as iPads, notepads, and mobile phones. My role emphasized delivering scalable, visually appealing, and user-friendly solutions while ensuring timely project delivery.

Henceforth Solutions

Oct 2017 – Dec 2020

Frontend UI Developer

At Henceforth Solutions, I specialized in frontend development, focusing on requirement analysis, project execution, and timely delivery. Utilizing technologies such as Bootstrap 3, HTML4, CSS, JavaScript. I designed and developed responsive, mobile-friendly web interfaces tailored to client requirements. My work included delivering seamless user experiences and ensuring cross-browser compatibility. Through close collaboration with cross-functional teams, I ensured each project met high standards of performance, design.

Immanent Solutions

Feb 2016 – Oct 2017

Frontend UI Developer

I have extensive experience in frontend development, where I handled requirement analysis, development, and timely delivery of projects. Using Bootstrap 3, HTML4, CSS, JavaScript, and jQuery, I developed responsive and mobile-first websites for clients ensuring seamless cross-browser compatibility and optimized user experiences.

Projects

HomeRate Advantage

- Designed and developed responsive layouts using HTML5, Bootstrap 5, CSS, Sass CSS, and JavaScript.
- Created adaptive user interfaces optimized for iPad, notepad, and mobile views.
- Ensured cross-device compatibility and seamless user experiences.
- Leveraged Sass CSS for efficient and maintainable styling workflows.
- Focused on clean, modular, and performance-oriented coding Practices

InDepth Reality

- Developed and implemented responsive layouts using HTML5, Bootstrap 5, CSS, Sass CSS, and JavaScript.
- Designed adaptive user interfaces tailored for iPad, notepad, and mobile views.
- Ensured cross-device compatibility and optimized performance for seamless user experiences.
- Utilized Sass CSS for structured, reusable, and maintainable styles.
- Focused on delivering a visually appealing and functional layout that met project requirements.

XRSports

- Designed and developed interactive UI components, including badges, leaderboards, and event participation features, to enhance community engagement.
- Created responsive layouts and adaptive designs using HTML, CSS, Bootstrap, Sass CSS, and JavaScript, ensuring seamless functionality across devices such as iPads, notepads, and mobile phones.
- Integrated social media sharing options to enable users to promote activities and content across multiple platforms, boosting visibility and engagement.
- Developed user-friendly interfaces for account management, profile updates, and content access, focusing on intuitive navigation and usability.
- Collaborated on features such as group creation, real-time communication channels, and event scheduling to foster community-driven interaction and engagement.

Plush Affairs

- Engineered dynamic and responsive layouts using AngularJS, tailored for diverse device compatibility.
- Streamlined the user experience by crafting interactive components and intuitive navigation structures.
- Optimized front-end performance to ensure fast loading times and seamless interactions across platforms.
- Applied modular design principles for maintainability and scalability of the application.
- Coordinated closely with stakeholders to translate business requirements into functional and visually appealing UI designs.

Sassy Dogs Fashion

- Crafted visually appealing layouts, ensuring an engaging user experience aligned with the brand identity.
- Designed intuitive navigation structures for seamless user interactions across all devices.
- Enhanced the website's visual appeal through creative use of typography, color schemes, and multimedia elements.
- Ensured pixel-perfect design consistency and optimized layouts for diverse screen resolutions.

Skills

Languages HTML5, CSS3, Sass, JavaScript

Frameworks/Libraries React.js, Bootstrap, Tailwind CSS, jQuery

Design Tools Figma, Photoshop

Version Control Git, GitHub, GitLab

Responsive Design Media Queries, Flexbox, CSS Grid

Build Tools Webpack, Vite, npm, Yarn

Education

Uttarakhand Technical University

Master of Computer Applications
