EDUCATION

Institute of Technology, Guru Ghasidas Vishwavidyalaya

July 2018 - June 2022

Bachelor of Technology - Computer Science And Engineering; CGPA: 7.79

SKILLS

Languages	C++, JavaScript, Python, SQL, HTML, Tailwind CSS
Frameworks	React.JS, Node.JS, Express.JS
Tools	VS Code, Katalon Studio, GIT, Github, MongoDB, MySQL

EXPERIENCE

Software Developer - INCEDO
Vendor Invoice Portal

March 2023 - Present

- Built a web-based portal using React.js, Node.js, and PostgreSQL, automating 100% of the invoice submission, approval processes, and status tracking.
- Streamlined workflow with systematized task routing, enabling reviewers to complete tasks 80% faster and reducing approval delays.
- Improved vendor satisfaction through real-time status updates and 100% automated reminders, ensuring timely issue resolution.

ServiceNow Automation

- Automated ServiceNow ticket data extraction and report generation using Python, reducing manual effort by 100% and saving the team 36 to 48 hours monthly.
- Enhanced report accuracy and consistency by 95% through programmed data validation and logic-based population. Improved client delivery timelines, ensuring reports were delivered ahead of schedule.

Smart Inventory Management System

- Developed the Inwards module to track new stock receipts, automating inventory updates with supplier details, item information, and quantities.
- Engineered the Outwards module to manage stock dispatch, ensuring accurate recording of quantities, customer details, and shipping information for efficient order fulfillment.

PROJECTS

EXPENSE TRACKER - React.JS, Node.JS, Express.JS, JavaScript, MongoDB - [Github](#)

February 2023

- Built a user-friendly expense tracking web application using React.js, Node.js, Express.js, JavaScript, and MongoDB, enabling users to monitor 100% spending habits and manage finances effectively.
- Designed features to support informed decision-making, money-saving strategies, and achieving financial goals through an 100% intuitive and secure interface.

NOTES APP -React.JS, Node.JS, Express.JS, HTML, CSS, MongoDB - [Github](#)

January 2023

- Designed and developed a personalized, user-friendly note management tool using React.js for efficient organization of individual notes and tasks.
- Created a secure sign-in system leveraging Node.js, Express.js, MongoDB, and JWT to ensure data privacy and app security.

ACHIEVEMENTS

- Runner's Up at [QWERHacks](#) (A MLH Hackathon) organized by the University of California, Los Angeles. - January 2021

EXTRA-CURRICULAR ACTIVITIES

- Worked as the Women Tech Lead at Google Developer Student Clubs - GGV. Organized events and delivered workshops reaching over 1000 developers.
