Experience

Application Nexus Webservices Pvt. Ltd.

June 2024 – April 2025

Senior Developer

Nashik, Maharashtra

- Led end-to-end development of scalable web applications using MEAN and MERN stacks, delivering high-impact features by aligning technical execution with client objectives and project timelines.
- Conducted code reviews, managed pull requests to uphold clean code practices, and mentored interns and junior developers to resolve blockers, apply best practices, and enhance delivery efficiency.
- Estimated task hours, maintained detailed weekly timesheets for client reporting, and served as the primary technical liaison for requirement gathering, stakeholder alignment, and client communications.

Application Nexus Webservices Pvt. Ltd.

June 2022 – May 2024

Junior Developer

Nashik, Maharashtra

- Delivered daily assigned project tasks by developing and integrating RESTful APIs, conducting thorough backend testing, and documenting endpoints and workflows using Postman.
- Built responsive UI components, integrated APIs, and continuously refined user experience through testing and close collaboration with UI/UX designers, developers, and QA teams.
- Participated actively in daily standups, sprint planning, feedback sessions, and client meetings; tracked progress using Jira while adhering to Agile methodologies to ensure timely delivery.

Education

KRT Arts, BH Commerce and AM Science College, Nashik

July 2020 – March 2022

Master of Science in Computer Science

Grade: **74.85%** (8.85 CGPA)

KRT Arts, BH Commerce and AM Science College, Nashik

July 2017 – April 2020

Bachelor of Science in Computer Science

Grade: **71.58%** (Distinction)

Projects

DGC | Angular, React, Node.js, Express.js, PostgreSQL, Bootstrap

December 2022 – March 2025

- Designed and implemented 250+ robust API endpoints using Node.js, Express.js, TypeScript, and Sequelize ORM with a PostgreSQL database, ensuring high stability, reliability, and backend performance.
- Integrated 250+ REST APIs seamlessly into both the customer-facing site and internal dashboard, optimizing data flow and enhancing user experience.
- Collaborated within a 6-member development team, maintained clean code standards, reviewed and merged pull requests, and contributed to improving team velocity and code quality.
- Configured an Integration Layer for Extract-Transform-Load (ETL) operations, successfully setting up data migration from the legacy FM system into the DGC backend infrastructure. Performed load testing with over 50,000 PDF files and successfully transferred data for more than 40,000 users from the FM system to the DGC backend.
- Spearheaded frontend development for two major modules **Availability Search** and **Production List**, and developed a complete User Profile module, which is used by over 40,000 users and actively accessed by more than 5,000 users daily, enhancing platform usability and functionality.

Alexur CRM | Angular, Node.js, Express.js, MongoDB, Bootstrap

August 2022 – November 2022

- Created 30+ judicial form print views in Angular using CSS @print media queries, ensuring printed layouts exactly matched official hard copy standards.
- Integrated automated form filling with Angular Reactive Forms, enabling accurate data population into 30+ legal templates.
- Conducted precise physical print validations on legal-size and A4 paper to ensure proper alignment and adherence to judicial compliance standards.

Skills / Tools

Frontend Development: HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript, React.js, Angular, Ionic, Bootstrap, Tailwind CSS.

Backend Development: Node.js, Express.js, Socket.IO.

Database Management: PostgreSQL, SQLite, Redis, MongoDB, Sequelize, Mongoose.

Version Control: Git, GitHub.

Other Tools and Proficiencies: pgAdmin, MongoDB Compass, Android Studio, Cursor, Testfully.io, Capacitor, Cordova, Jira, CI/CD, Postman, Responsive Design, Ngrok, VS Code, Chrome DevTools, Regular Expressions, YAML, Zod, Zustand, Context API, Linux.
