EDUCATION

Sapthagiri College Of Engineering
Bachelor of Engineering, Computer Science

Bengaluru, Karnataka
June 2018 – May 2022

EXPERIENCE

Associate Software Engineer
Signdesk

June 2022 – May 2024
Bengaluru, Karnataka

- Developed an internal logistics application that significantly enhanced the operational efficiency of the teams by 60% and reduced costs by 22%. This achievement was primarily attained through automating the end-to-end flow.
- Collaborated with cross-functional teams to devise and implement scalable solutions for inventory tracking and management. This initiative led to a remarkable 90% decrease in shipping errors.
- Refactored the legacy system to accommodate increasing loads and successfully addressed major scalability issues. This effort resulted in a 40% improvement in system stability and bug reduction.
- Actively engaged with the product team to enhance the user experience, contributing valuable insights and ideas for continuous improvement.
- Integrated AWS services into the project which enhanced the infrastructures scalability and performance.

Software Developer Intern
Signdesk

May 2022 – May 2022
Bengaluru, Karnataka

- Contributed to Frontend and Backend development using JavaScript and Node.js.
- Collaborated with a tech enthusiasts, fostering technology innovation.
- Played a pivotal role in developing a website during my tenure, demonstrating versatility and impactful contribution for developing the website.

PROJECTS

Bike Rental System | *Nodejs, Javascript*

- Developed a CRUD web application using react for college DBMS project.
- Used MYSQL database and Nodejs API.
- Users can create account and rent bikes by providing required details , bill is generated with various factors like distance travelled, bike type, rent time.

Diy Art Store | *Angular, Nodejs, Nosql*

- Created a web app for an art studio that helps showcase artists' work and allows users to book products online.
- Built the app using technologies like Angular, Nodejs, which gave me a chance to deepen my skills in modern web development.
- Optimized web app performance through techniques like lazy loading, caching, and code splitting, resulting in improvement in loading times.

TECHNICAL SKILLS

Languages: Javascript, Typescript, Python, Nosql, SQL , HTML/CSS - basics

Frameworks: Angular, Node.js, Expressjs, Koa, React

Developer Tools: Git, Google Cloud Platform, RestAPI, VS Code, Visual Studio, Eclipse, Bitbucket, Microsoft Azure,

Libraries: rxjs, ngrx

Skills: Agile Methodologies (Scrum)

Certifications: AWS, Full stack development
