## Education

**GL Bajaj Institute of Technology and Management**

**Aug. 2019 – June 2023**

*B.Tech in Computer Science and Engineering*

*Noida*

## Technical Skills

**Languages:** Java, C#, JavaScript, TypeScript, C++, C, Python, HTML/CSS

**Frameworks:** Spring, Spring Boot, Hibernate (JPA), React, Node.js, Express.js, NestJS, Redux, Next.js, React Native, Vue, .NET, Angular

**DBMS:** SQL, Oracle, PostgreSQL, MongoDB

**Other technologies:** AWS, Docker, REST API, AJAX, Redis, jQuery, Bootstrap, GitHub, GitLab, GCP, Agile (Scrum)

## Experience

**JourneyToAutomation**

**Jan 2024 – Present**

*Software Developer*

*Remote*

- Developed responsive web apps with **React** and JavaScript, delivering sleek, user-focused frontend experiences.
- Built fast, scalable RESTful APIs using **Node.js** and **MongoDB** for seamless full-stack performance.
- Created a high-performance Android app using **React Native** and **Expo**, enhancing mobile accessibility for clients.

**Infozech Software Private Limited.**

**July 2023 – Present**

*Software Engineer*

*Delhi*

- Built and optimized REST APIs with MVC architecture, enhancing operational efficiency and user experience via Oracle-frontend integrations (JavaScript, jQuery, Angular, React).
- Implemented automated testing with Postman and Jenkins, reducing deployment errors and enabling daily releases via CI/CD pipelines.
- Leveraged Agile (Scrum), Jira, and Git for project management, driving team collaboration and supporting digital transformation for Tower Companies and Telcos.

**Axeno Consulting**

**Jan 2023 – Jun 2023**

*Backend/AEM Developer*

*Noida*

- Designed AEM components, workflows and RESTful services with Java.
- Collaborated in Agile sprints via Jira, delivering multiple client websites with custom functionalities.

## Projects

**Chat-AI** | *React, Node.js, Python, JWT*

**2022, Noida**

- React-based web application that provides AI-driven customer support, reducing support team workload by 40%
- Integrated Node.js and Python (FastAPI) to process user queries and generate dynamic responses with 95% accuracy based on data provided in text, CSV, or PDF formats.
- Added a summarization feature that tailors the responses to user needs, making information more concise and easy to understand.

**BlendIn** | *MERN, React Native, Expo, Redux*

**2023, Remote**

- Developed a full-stack web app using MERN stack and a mobile app with React Native and Expo for Android.
- Added push notifications and also integrated **JWT authentication** & **OAuth**, enhancing security, while utilizing **Redux** to streamline state handling and improve app performance.
- Deployed scalable APIs on Heroku/Vercel and front-end on Netlify/Expo, ensuring scalable and reliable production environments.

## Certifications

- Getting Started with **AWS Machine Learning**
- React Basics by META
- Google Project Management
