

## EDUCATION

Kalyani Government Engineering College	West Bengal,India
Bachelor Of Technology,Electronics And Communication Engineering	August 2018-July 2022
CGPA - 8.1	

EXPERIENCE

3 years

●Wipro Technologies	March 2023 - Present
Software-Developer	<b>Skills Acquired:</b> JavaScript, React.js, Node.js, MongoDB Material-ui, SocketIO, Rest API, Git
● Collaborated with developers to design and develop a user-friendly front-end interface with an optimized user experience; boosted user engagement by 25% and reduced bounce rate by 15%.	
● Worked on Wipro Smart IPD Project in angular and angular material and develop many features like chart and added many pages . Worked in a team of 10 members and give Daily reports to the manager	
● Provided weekly detailed project reports to keep managers informed on milestones and updates.	
●Exuber Technologies	March 2022- December 2022
Software-Developer	<b>Skills Acquired :</b> JavaScript, React.js, Node.JS, Express.JS,MongoDB
● Implemented REST APIs based Microservices on Scrapers that improved the performance by 60%	
● Executed microservices migration, delivering high-performance API. Reduced response time by 50% and scaled system capacity 3x for 10,000+ concurrent users. Boosted user satisfaction by 40%.	

## PROJECT

● Market Place App
Utilized: JavaScript, React.JS, Redux, Node.JS, Express.JS, MongoDB, Bootstrap, Rest API, Git, <ul style="list-style-type: none"><li>● A market place application where anyone can create account and buy or sell old things or new things they want.</li><li>● Added Admin Pannel , from where Admin can control all users and can approve or reject the the products users or Want to sell or buy.</li><li>● I have added Notifications bar in this project where Users and Admins both will get notifications.</li><li>● Users or sellers will get notification on getting product approved by the admin and Admin will also get notifications on creating new product by the user.</li><li>● And Many more features I have added . Anyone can visit on this link and can check</li><li>● Project Link : - <a href="https://market-place-0mzm.onrender.com/login">https://market-place-0mzm.onrender.com/login</a></li></ul>
● Social Media App
Utilized: JavaScript, React.JS, Redux, Node.JS, Express.JS, MongoDB, Bootstrap, SocketIO Rest API, Git, <ul style="list-style-type: none"><li>● Developed and launched a highly engaging social media app resembling Facebook, Instagram, and Twitter.</li></ul>
● E-Commerce App
●Project Link :- <a href="https://ecommerce-mern-9bmv.onrender.com/">https://ecommerce-mern-9bmv.onrender.com/</a>
Utilized: JavaScript, React.JS, Redux, Node.JS, Express.JS, MongoDB, Rest API, Git, HTML, CSS <ul style="list-style-type: none"><li>● Developed and implemented e-commerce solutions for seamless online transactions.</li><li>● Utilized cutting-edge technologies for secure, scalable platforms, enhancing browsing, search, and purchase experiences.</li></ul>
● React Pizza App
● Project Link :- <a href="https://66aa49c73aae45008cfdc619--chipper-mermaid-6adbb8.netlify.app/">https://66aa49c73aae45008cfdc619--chipper-mermaid-6adbb8.netlify.app/</a>
Utilized: JavaScript,React.JS,Redux, Tailwind Css. <ul style="list-style-type: none"><li>● This is a Pizza booking application which I made with the help of React and Redux . I have also made cart with redux , where one can add pizzas , buy pizzas and user can also set priority whether its an urgent delivery or not.</li></ul>

## SKILLS

● Language: Data Structures and Algorithms, JavaScript, HTML, CSS, Node.JS, TypeScript
● FrameWorks/Libraries and Developer Tools: React, Redux,React Native,Express.JS, Next.JS, Rest-API, JSON, MongoDB, Socket.IO,Material-UI, Bootstrap, Git, Jira, VsCode, Peer.JS, Tailwind CSS, UI/UX, WebPack

## ACHIEVEMENT

● Codeforces: Specialist Rating 1839, Round 705, Div 2 Global Rank ● CodeChef: April Challenge 2021 Global Rank 317, 4 Star Rating 1997.
