Address: Sikandrabad, UP | Phone: 8859755869

LinkedIn: [utkarsh-tomer-67947318](https://www.linkedin.com/in/utkarsh-tomer-67947318)

PROFESSIONAL SUMMARY

I am Fullstack developer, having 4+ years of experience in MERN stack. Apart from that I have experience in **GraphQL**, **Typescript**, **Jest** and **Enzyme**, **Strapi**. I love to explore new dimensions of technology. I wish to work with a diverse team and look forward to contributing's vision and goals.

SKILLS

Front End Development: JavaScript | ReactJs | NextJs | TypeScript | HTML5 | CSS | Jest Enzyme

Back End Development: NodeJs | ExpressJs | GraphQL | MongoDB

Headless CMS: Strapi

Other Interests: Backstage

Third Party Libraries: AntDesign | Material Ui | Launch Darkly

EXPERIENCE

Successive Technologies | Senior Associate Engineer

Noida | UP |

19/10/2020 - Present

- Designed and implemented **RESTful APIs** and **GraphQL** APIs using **Node.js**, and leveraged **React.js** to create responsive and interactive user interfaces, facilitating seamless interaction between frontend clients, ensuring responsive design and cross-browser compatibility.
- Demonstrated expertise in writing **high-quality**, **scalable**, and **efficient** code, adhering to industry-standard coding conventions and best practices.
- **Excelled** in working with **TypeScript** to enhance code maintainability and development efficiency, along with 3rd party component libraries like **Ant Design**, **HTML**, **CSS**, and **JavaScript**, to create modern and responsive user interfaces.
- Actively participated in **code reviews**, **design reviews**, **SCRUM** calls, and **troubleshooting**, ensuring smooth operations and uptime for live systems.
- Skillfully utilized modern tools and workflows such as **Webpack**, **Babel**, **Git**, **Bitbucket**, **Postman**, **Visual Studio Code**, **JIRA**, and **ClickUp** to enhance project management efficiency and demonstrated outstanding communication, fostering seamless collaboration with team members and stakeholders.

PROJECTS

Developer Portal | Node, React, Backstage

- A developer portal, also known as an API portal or API developer portal, is a web-based platform that provides a centralized location for developers to access documentation, tools, resources, and other information related to a particular software or application programming interface (API).

Wellness Today | React, GraphQL, Strapi

- Wellness Today is a blogging website that allows users to update, delete, and publish blogs using a content management system CMS.

PeopleSearch | MERN Stack, Node, React, GraphQL, Typescript, Jest & Enzyme, Dentsu Component Library

- Played a pivotal role in developing and maintaining APIs, addressing bugs in production,
- Increased test coverage beyond 80% by developing and implementing detailed unit and integration tests, which enhanced overall software reliability.

GulfHR | Next.js, Ant Design, Swr Mutation

- Developed and implemented various modules, including Authentication, Tenant Management, Form Builder, Screen Builder, Setup, and Dashboard.
- Utilized modern frontend technologies to create end user-friendly interfaces.
- Streamlined and automated HR tasks through efficient module development, enhancing overall system performance and user experience.

NOKIA | React.js, Nokia component library

- Developed and implemented various modules, including Authentication, Organization, User Management, and work on RBAC.
- Utilized modern frontend technologies to create intuitive and user-friendly interfaces.

EDUCATION

Meerut Institute Of Engineering and Technology | MCA | 2018-2020 | Percentage-70%

KEY COMPETENCIES

- Front-end web development
- Code structure and architecture
- Web performance optimization
- Programming languages
- Project management using Jira and Clickup, Redmine.
