

PROFILE

I have 8+ years of experience in product designing. I'm a Product Designer who loves turning ideas into easy-to-use products. I'm good at the whole design process, from thinking up ideas to making them real. I use tools that designers usually use and really care about making designs that people love. I enjoy making things that help businesses do well. I'm excited about working with a team to create awesome designs.

SKILLS

- ☒ User Research
- ☒ Information Architecture
- ☒ Wireframing
- ☒ Prototyping
- ☒ Visual Design
- ☒ Usability Testing
- ☒ Collaboration
- ☒ User Interface Development
- ☒ User Feedback Analysis
- ☒ Staying Current
- ☒ Problem Solving
- ☒ Continuous Improvement
- ☒ Responsive Design in Figma

TOOLS

- Photoshop
- Illustrator
- Figma
- Indesign
- Mirro
- Adobe Acrobat
- Adobe Premiere pro
- HTML, CSS
- Bootstrap
- Java Script
- Jquery Animation

LANGUAGES

- English
- Hindi

WORK EXPERIENCE

Protatech India

October 2015 - Present

Project : EventKeys (USA)

<https://www.eventkeyz.com/Home.aspx>

Generate mockups and wireframes using Photoshop & Figma for Eventkeyz. Research and quantitative research analyst and as well as prototyping. Extensively used CSS3, Java Script, and jQuery to enhance functionality and user experience on web pages, as well as bootstrap to develop responsive web design projects.

Project : Telecom Sector Skill Council (India)

<https://www.tsscindia.com/>

I was design Website, Web Admin, App and specialize in crafting visually appealing and user-friendly interfaces. Illustrate design ideas using storyboards, process flows and sitemaps

Project : Sort Elearn (USA)

<http://www.sortelearn.com/>

My role in this project is solving problems, Client Meetings, Give direction in designing path. And I worked on UI elements like menus, tabs and widgets and front end development for web and admin section. Develop UI mockups and prototypes that clearly illustrate how sites function and look like I worked on distributed teams to design and code websites, banners and other interactive media for Sortca.

Project : IAVM Trained Crowd Manager (USA)

<https://www.trainedcrowdmanager.com>

create products with a good user experience. product development process by understanding user needs, defining user flows, creating wireframes and prototypes, designing intuitive interfaces, conducting usability testing, and iterating on designs based on user feedback.

Project : Aspire Assess Skill (India)

<http://www.aaskill.com/>

I'm working on design process. This includes conducting usability tests to ensure the products meet user needs effectively. I collaborate closely with cross-functional teams, such as developers and stakeholders, to bring designs to life. Wireframing, prototyping, and implementing industry tools are key aspects of my daily tasks. Additionally, I contribute to the ongoing improvement of designs and stay adaptable to emerging design trends and technologies.
