Professional Summary

Android Developer with 1.9+ years of experience in building and maintaining mobile apps. Proficient in Kotlin, Java, and Android frameworks like Jetpack and Material Design. Experienced in API integration, performance optimization, and app deployment to Google Play. Focused on delivering efficient, user-friendly solutions.

Core Skills

Kotlin | Java | MVVM | Android SDK | Room Database | Retrofit | Firebase | Jetpack Components (LiveData, ViewModel) | Material Design | Git | REST API Integration | Play Store Deployment

Professional Experience

Android Developer *BioEnable Technologies* | April 2023 – Present

- Designed and developed 5+ scalable Android applications using Kotlin, MVVM architecture, and Jetpack libraries, improving team productivity by 20%.
 - Integrated RESTful APIs using Retrofit, optimizing data handling and reducing latency by 30% across multiple projects.
 - Published 2 applications to the Google Play Store, resulting in a cumulative download count of over 3,000 within six months.
 - Conducted code reviews, debugging, and optimizations, reducing production issues by 15%.
 - Developed an app that improved workflow efficiency for a team of 20 during the successful execution of the 5000 FRR event in Delhi.
-

Key Projects

E-commerce Application (Personal Project)

- Built a fully functional e-commerce app using Kotlin, MVVM, Jetpack components.
- Implemented advanced animations and real-time updates using LiveData and Coroutines to enhance user experience.

RD Service Iris Application

- Created a secure biometric authentication app with Kotlin, Coroutines, and Retrofit.
- Delivered on schedule, earning a 95% user satisfaction rate and improving authentication accuracy by 25%.

Staff Management App

- Designed a team management solution with offline capabilities and enhanced data security.
- Published the app, which earned 1,000+ downloads and improved task tracking efficiency by 40%.

Education

B.E. | North Maharashtra University, Jalgaon | CGPA: 7.04

Certifications & Achievements

- Published multiple applications on Google Play Store with high user ratings.
- Developed cross-platform features using Flutter for enhanced functionality.
