### PROFESSIONAL EXPERIENCE:

- Project & Program Management
- Biometric & Ads Product Management
- Application Design & Development
- Requirements Analysis/Presales
- Client/ Stakeholder Management
- Budget and Cost Analysis
- Technical Architecting/ Reporting
- Risk Management

### PROFESSIONAL SUMMARY:

A seasoned Project Manager with 19 years of multi-disciplinary experience across Software Development, Architecture Design, and Project Management. Expertise in delivering complex, large-scale solutions for government, aviation, telecom, and financial sectors. Proven track record in driving digital transformation, integrating cutting-edge biometric technologies, and managing high-performing teams across multiple international locations.

#### Key highlights:

- Led the end-to-end delivery of Immigration eGates solutions at major international airports in India (Delhi, Mumbai, Bangalore, Chennai, etc.), transforming immigration processes with biometric verification.
- Spearheaded the successful deployment of digital identity solutions, including biometric kiosks and cloud-native microservices, driving efficiency and cost-effectiveness.
- Deep expertise in Agile, Lean, and Waterfall methodologies, ensuring timely delivery and alignment with client expectations.

### CORE COMPETENCIES:

- **Project Management:** Agile & Predictive Methodologies, Scrum, Kanban, Waterfall, Resource Allocation, Risk Management, Budget Planning
- **Technical Expertise:** Microservices, Cloud-Native Architecture, DevOps, Docker, Kubernetes, AWS, Java, PHP, Angular
- **Leadership:** Cross-functional Team Management, Mentorship, Conflict Resolution, Stakeholder Communication
- **Customer Relations:** Client Engagement, Requirement Analysis, Technical Support, Solution Delivery
- **Domain Expertise:** Biometric Security, Digital Identity, Civil Aviation, Healthcare, Financial Services

- Project Planning & Tracking
- Project Delivery Management
- Application Support & Maintenance
- Quality/Escalation Management
- Team Management Risk Management
- SDLC/Product Development
- Scaled Agile Framework
- Process Improvement
- Dependency/Third-party Management
- Product Development
- PMO
- AI (Artificial Intelligence) & IOT

## TECHNICAL SKILLS:

- **Programming Languages:** Java, PHP, Angular, C++, JavaScript
- **Frameworks & Tools:** Spring Boot, Spring Cloud, Docker, Kubernetes, RabbitMQ, Apache Kafka, Grafana, Telegraf, MySQL, MongoDB, Redis
- **Cloud Platforms:** AWS (EC2, S3, RDS, Lambda)
- **Agile & DevOps:** Jira, Jenkins, Git, Maven, Agile Scrum, Kanban, CI/CD

## AFFILIATIONS:

- **Member** – Project Management Institute (PMI), USA
- **Agile Practitioner** – Scrum Alliance
- **W3C** – Member of W3C

## PERSONAL SKILLS:

- **Leadership:** Excellent at managing cross-functional teams and fostering collaboration.

## KEY PROJECTS:

1. **NICSI-Immigration eGates (IDEMIA)** – Large-scale biometric validation system for the Bureau of Immigration across major Indian airports.
2. **Immigration Biometric Kiosk (IDEMIA)** – End-to-end solution for first-time passenger biometric capture at airports.
3. **Digi-Yatra eGate (MOPA Airport, Goa)** – Integration of biometric face matching for seamless airport entry.
4. **Ad Platform (Ultra Corporation)** – Developed and deployed a Real-Time Bidding advertising engine.

## PROFESSIONAL EXPERIENCE:

### IDEMIA – Biometric Security Solutions

*Senior Project Manager* (Dec 2019 – Present)  
Noida, India

- **Project: NICSI-Immigration eGates (8 Airports)**  
Led the delivery of a paperless biometric identity validation solution for the Bureau of Immigration, enabling seamless passenger processing at major Indian airports (Delhi, Mumbai, Bangalore, Chennai, etc.). Oversaw the integration of hardware (eGates, MFace, MSO) and software (Java, C++).
  - Managed resource allocation, project scheduling, and risk mitigation.
  - Conducted requirement analysis and provided technical guidance throughout the project lifecycle.
  - Delivered projects on time and within budget, ensuring customer satisfaction.
- **Project: Immigration Biometric Kiosk**  
Managed the development and deployment of biometric kiosks at Delhi T3 for first-time international passengers entering India, integrating fingerprint and facial recognition systems.
  - Led a cross-functional team of developers and engineers.
  - Collaborated closely with stakeholders to ensure seamless integration with airport systems.
- **Project: Digi-Yatra eGate Service (MOPA Airport, Goa)**  
Spearheaded the deployment of the Digi-Yatra integrated

- **Communication:** Strong interpersonal and communication skills with a focus on delivering customer-centric solutions.
- **Problem Solving:** Adept at identifying and addressing challenges with practical, efficient solutions.

## EDUCATION & CERTIFICATIONS:

- **Master of Computer Applications (MCA)** – Indira Gandhi National Open University, New Delhi, India (2006–2008)
- **B.Sc. in Physics and Mathematics** – C.S.J.M. University, Kanpur, India (2003–2005)
- **Project Management Professional (PMP)** – Project Management Institute (PMI), USA
- **12-Month Diploma in Multimedia** – Areena Multimedia (2002–2003)
- **Certified ScrumMaster (CSM)** – Scrum Alliance

biometric validation system, enhancing passenger experience and streamlining airport security processes.

### **Ultra Corporation OÜ – Ad Platform Solutions**

*Head of Department – Ad Platform* (Dec 2017 – Nov 2019)  
Paris, France

- Led the development and deployment of an advertising platform integrating RTB (Real-Time Bidding) for advertisers and publishers, resulting in optimized revenue and increased platform adoption.
- Designed the architecture for an open RTB ecosystem (SSP-DSP, Ad Exchange), leveraging technologies such as Java, Spring Boot, and Kafka.

### **Zhongshan Xiaobawang Leading Technology Co. Ltd. – Ad Platform Solutions**

*Head of Department – Ad Platform* (Mar 2017 – Dec 2017)  
Shanghai, China

- Directed the development of a real-time bidding engine (RTB) for digital advertising platforms, including integration with mobile game consoles and advertising SDKs.

### **Collectcent Digital Media Pvt. Ltd.**

*Team Lead – Ad Platform* (Dec 2015 – Feb 2017)  
Gurugram, Haryana, India

- Led the development of a cloud-based advertising platform supporting multiple campaigns and targeting parameters for advertisers, significantly improving user engagement.

### **Synapse India Communication Pvt. Ltd.**

*Assistant Team Lead* (Dec 2010 – Dec 2015)  
Noida, India

- Contributed to the development of various healthcare, fitness, and real estate applications, working closely with clients to meet their project requirements and ensure delivery of high-quality software.
-
